

LADYBIRD EVER AFTER

Competitive Intelligence Report

Ireland Destination Wedding & Elopement Market · 2026

Research based on live competitor websites, pricing data, and customer reviews · March 2026

The Ireland Elopement Market in 2026

The Ireland destination elopement and intimate wedding market serving US couples has grown substantially since 2020. Several competitors have emerged, ranging from solo photographer-planners to multi-country European operators. The market broadly segments into three tiers: budget (€940–\$4,900), mid-market (\$5,000–\$9,000), and premium (\$9,000+). Ladybird Ever After competes in the mid-to-premium tier.

The single most important structural shift for 2026 is that legal marriage in Ireland has become significantly more complex for international couples. The Irish registrar now requires at least three months' notice in person, appointment availability is limited, and outdoor or remote locations are rarely approved for legal ceremonies. This has driven many competitors to recommend couples marry legally in the US first and have a symbolic ceremony in Ireland — a trend that strongly benefits LEA given its expertise in guiding couples through both options.

KEY MARKET TRENDS FOR 2026

Legal complexity: Irish registrar requirements are stricter, creating a natural advantage for planners with legal guidance expertise.

Photography-video bundling: Several competitors (Twin Flames, EpicLove) lead with media quality as the product, not planning.

DIY-adjacent: Peach Perfect and Eloping in Ireland let couples choose vendors — appealing to budget buyers but creating coordination risk.

Vow renewals: Growing segment explicitly served by Peach Perfect, Twin Flames, and LEA. Underserved by most other players.

US-buyer demand: The vast majority of Ireland elopement couples are American. Only LEA operates as a US-based entity with USD contracts.

Who You Are Competing Against

Six key competitors were researched in depth. The table below provides a side-by-side overview. Ladybird Ever After is included for direct comparison.

Company	Price range	What they offer	Based	Max guests	Competitive analysis
Eloping in Ireland	\$3,890–\$6,995+	Location-specific packages (Cliffs of Moher, castles, ruins). US\$ pricing. Fully customizable vendors — couple chooses from their network. Up to 25 guests. Cliffs + Pub reception package \$6,018.	Ireland-based	Up to 25	Cheapest entry in market at \$3,890. Huge brand presence. Locked to specific locations. Vendor flexibility is a selling point but adds coordination complexity.
Twin Flames	\$5,500–\$12,100	All-in-one: Leeona = planner + celebrant, Tommy = photographer + filmmaker. 6 'Collections'. In-house photo/video guarantee consistency. Picnic hamper, driving service, champagne included. Wild Atlantic Way specialists.	Ireland-based (Galway)	Intimate only	Deeply personal brand. In-house photo + video is unique. No separation of vendors = no flexibility. Small operation — 1,931 IG followers. Not a direct competitor for weddings with guests.

Peach Perfect	~€4,066– €8,000+	European multi-country operator (Ireland, Italy, Spain, Portugal). Transparent online pricing calculator. Couple pays most vendors directly — Peach Perfect charges planning fee only. Up to 60 guests. Symbolic + legal options.	European-based	2–60	Most direct structural competitor. Cheaper because couple pays vendors. US couples bear FX risk. No single USD contract. No US-based entity. Ireland is one of 9 countries — not their specialty.
EpicLove	\$6,800– \$21,400	Photography-first packages. No planning service — just photography coverage + vendor list access. \$6,800 = 4 hrs photography only. \$21,400 ultimate includes hair/makeup/flowers. Strong on media delivery (express editing, galleries).	Ireland-based	Not specified	Not a planner — a photographer with add-ons. No coordination, no planner relationship. Different buyer entirely: couple who has already planned and just needs photography.
Love Gracefully	€940–€8,580	Very wide range from basic ceremony-only (€940) to 8-hr full-day (€8,580). Mercedes car tour + chauffeur included in mid-range. Up to 15 guests at outdoor locations free. Larger groups need indoor venues at extra cost.	Europe-wide	Up to 15 (free)	Very low entry price competes for budget couples. 15-guest outdoor cap limits appeal. Does not operate in USD — FX exposure for US couples. Primarily European clientele.

Solar Rose	From €4,800	Photographer-planner hybrid — one person covers both. Highly personalised, adventure-focused. Pricing starts at €4,800 with most couples spending €6-7K. Ireland is her home — deep local knowledge. Inclusive of planning + photography.	Ireland-based	Intimate	Solo operator — ceiling on capacity and scale. Niche authentic brand. Photography style-specific. Not a threat at scale; appeals to a specific aesthetic.
Ladybird Ever After	\$4,900–\$12,200	Full-service US-based planning + vendor management. Single USD contract. Founder story (American + Irish, married in Ireland). Dedicated planner per couple. Republic of Ireland specialists. Legal + symbolic options.	US-based (USD)	2–50	ONLY US-based operator with USD contract. Founder credibility. Genuine local knowledge from lived experience. Full vendor management — couple never pays vendors separately. Premium service at premium price.

Market Pricing Map

The table below maps where each competitor sits across price tiers. LEA's four packages are shown at their positions in the market for direct comparison. Note that comparing prices directly is misleading — what is included at each price point varies significantly. The analysis that follows breaks this down by service model.

Company	Entry	Mid-low	Mid	Mid-high	Top tier
Eloping in Ireland	\$3,890	\$4,890	\$6,018	\$6,995	Custom
Twin Flames	\$5,500	\$6,490	\$8,250–9,020	\$10,120	\$12,100
Peach Perfect	~\$4,700	~\$5,500	~\$6,500	~\$7,500	~\$9,000+
Love Gracefully	€940 (~\$1,100)	€2,470	€3,910	€6,200	€8,580
EpicLove	\$6,800	\$8,200	\$12,400	\$21,400	—
LEA — Fáilte	\$4,900				
LEA — Grá		\$7,300			
LEA — Sláinte			\$8,900		
LEA — Ard				\$12,200	
LEA — Bespoke					~\$7,000 (planning only)

WHY DIRECT PRICE COMPARISONS ARE MISLEADING

Eloping in Ireland's \$3,890 entry does NOT include hair/makeup, bouquet, or a dedicated planner. LEA's \$4,900 Fáilte includes these and a US-based contract.

Twin Flames' \$8,250 Collection 3 includes in-house photography AND videography. LEA's \$8,900 Sláinte does not include video — but LEA covers up to 25 guests vs Twin Flames' intimate-only offering.

Peach Perfect's prices are in EUR and couple pays venue/vendors separately — the quoted price is the planning fee only. Total spend is significantly higher.

EpicLove's prices are photography-only — there is no planning service. Not a comparable product at all.

Feature-by-Feature Comparison

The table below compares key features that matter to US couples planning an Ireland elopement or intimate wedding. LEA's unique advantages are highlighted in green.

Feature	LEA	Twin Flames	Peach Perfect	Eloping in Ireland	EpicLove	Why it matters
US-based entity, USD contract	✓	✗	✗	✗	✗	✗
Dedicated planner per couple	✓	~	✓	✓	✗	✗
In-house photography included	✗	✓	✗	~	✓	✓
Founder story / lived experience	✓	✓	✗	✗	✗	✗
Vendor flexibility (couple's choice)	✗	✗	✗	✓	✓	✗
Republic of Ireland specialist	✓	✓	✗	✓	~	✓
Up to 50 guests covered	✓	✗	✓	~	✗	✗
Legal marriage guidance	✓	✓	✓	✓	✗	~
Vow renewal offering	✓	✓	✓	✓	✗	✓
Welcome/day-after dinner planning	✓	✗	✗	✗	✗	✗

LEA'S NON-NEGOTIABLE COMPETITIVE ADVANTAGES

1. US-based entity with USD contract — the ONLY operator in this market offering this. Zero FX risk, no international wire transfers, American contract law.
2. Full vendor management — couple never coordinates with or pays Irish vendors directly. One invoice, one point of contact.
3. Founder lived experience — Yasmeen and Laurence married in Ireland themselves. This is a genuine, verifiable story that no competitor can replicate.
4. Welcome and day-after dinner planning — no competitor prominently offers this. It is a meaningful practical service for couples bringing guests to Ireland.
5. Republic of Ireland specialist — while some competitors cover multiple European countries, LEA is focused exclusively on Ireland, giving deeper local knowledge.

Eloping in Ireland

Eloping in Ireland (elopinginireland.ie) is the highest-threat competitor in the market. Operating since 2014, they have strong SEO, US-dollar pricing, and a broad location portfolio across Ireland. They were one of the first movers in the market and have built significant organic search presence.

Dimension	Eloping in Ireland
Business model	Location-specific packages (Cliffs of Moher, castles, ruins, pubs). Fully customizable vendor selection — couple picks from their network. US dollar pricing. Operating since 2014. Based in Ireland.
Package range	Simple Cliffs: \$3,890 (2 hrs photo, celebrant, location fee). Standard: \$4,890 (up to 15, adds hair/makeup/bouquet). Premium: \$6,995 (up to 25, adds video, music, chauffeur). Cliffs + Pub Reception: \$6,018 (3 hrs photo, dinner, toast).
Key differentiator	Vendor flexibility — couple chooses photographers, celebrants from their approved network. Location-specific expertise — particularly Cliffs of Moher. Strong SEO and long operating history.
Pricing vs LEA	Entry \$3,890 vs LEA Fáilte \$4,900. Standard \$4,890 for 15 guests vs LEA Grá \$7,300 for up to 12. On guest-adjusted basis LEA is premium but the inclusions and service model are different.
Weakness vs LEA	Ireland-based — same FX/payment issues as Peach Perfect. Vendor flexibility creates inconsistency risk. Location-specific packages limit flexibility. No dedicated planner model — more transactional.
Threat level to LEA	HIGH. Strong brand, long history, US-dollar pricing, affordable entry. The couples who choose Eloping in Ireland are often budget-first. LEA needs to win on service quality and the USD single-contract story.

HOW TO WIN AGAINST ELOPING IN IRELAND

Emphasise the USD single contract — their couples still deal with Irish vendors directly for coordination.

Stress the dedicated planner relationship vs their more transactional model.

The LEA founder story (American wife + Irish husband, married in Ireland) is more emotionally resonant than a company website.

Their vendor flexibility is actually a weakness in disguise — inconsistency risk. LEA's vetted network is a stronger promise.

Twin Flames Elopements

Twin Flames (twinflameselopements.com) is a husband-and-wife operation based in Galway on the Wild Atlantic Way. Leeona is the planner and celebrant, Tommy is the photographer and filmmaker. They are a genuine personal brand with strong reviews and an authentic story — similar in spirit to LEA's founder narrative.

Dimension	Twin Flames
Business model	Husband and wife team. Leeona = planner + celebrant. Tommy = photographer + filmmaker. All services in-house. Based on Wild Atlantic Way (Galway). 6 'Collections' from \$5,500 to \$12,100.
Package range	Collection 1: \$5,500 (3-4 hrs photo, private vow reading, picnic hamper, driving). Collection 2: \$6,490 (5-7 hrs photo, 3 hrs coordination). Collection 6: \$12,100 (8-10 hrs photo + video, documentary film, drone, 6 hrs coordination).
Key differentiator	In-house photography and videography is rare. Artisan picnic hamper, driving and guide service included. Deeply authentic personal brand. Leeona is both planner AND celebrant — one relationship for everything.
Pricing vs LEA	Comparable price range. Collection 3 at \$8,250 vs LEA Sláinte at \$8,900. Twin Flames includes photo + video at that price; LEA does not include photo in same way. Different product — not apples-to-apples.
Weakness vs LEA	Solo operation — capacity ceiling, no scale, no team. Wild Atlantic Way / west-coast only. No large-group capability. In-house photo/video means no style flexibility. Ireland-based (FX/payment same issue). 1,931 IG followers — small reach.
Threat level to LEA	LOW-MEDIUM. They serve a different buyer — couples who specifically want Leeona + Tommy's personal style and in-house media. Not competing for group weddings or the US-company-contract market.

HOW TO WIN AGAINST TWIN FLAMES

LEA can serve couples with guests — Twin Flames is intimate-only and cannot scale beyond elopements.

LEA's vetted vendor network means couples can choose their own photographer style. Twin Flames locks couples into Tommy's aesthetic.

LEA operates as a US company. Twin Flames has the same FX and payment friction as all other Irish operators.

Twin Flames' capacity is limited by being a two-person operation. LEA can handle multiple bookings simultaneously.

Peach Perfect Weddings

Peach Perfect Weddings (peachperfectweddings.com) is a European multi-country wedding planning agency originally founded by Yana and Waldemar, covering Ireland, Italy, Spain, Portugal, France, Germany, Austria, and Switzerland. They have a team of local planners across Europe. Their transparent online pricing calculator and modular package builder is a strong funnel tool.

Dimension	Peach Perfect Weddings
Business model	Planning fee + couples pay vendors directly. Transparent online pricing calculator. Multiple European destinations (Ireland, Italy, Spain, Portugal, France, Germany, Austria, Switzerland). Packages from ~€4,066 for Republic of Ireland basics.
Pricing structure	Baseline Cliffs of Moher, 4 guests, symbolic ceremony: €4,066 (~\$4,700). Adding legal ceremony: +€365. Adding hair/makeup, bouquet, music, videography all incremental. Complex but transparent.
Key differentiator	Online package builder with instant quote. Very low-friction entry to the funnel. Couples feel in control of their spend.
Weakness vs LEA	European-based — US couples bear full FX risk and must make international wire transfers. Ireland is 1 of 9 countries — not the focus. No US entity, no USD contract. Planning fee model means couple still coordinates with vendors.
Target market	US and international couples wanting affordable European weddings. Budget-conscious. Comfortable with some DIY elements. Couple pays venue/reception separately.
Threat level to LEA	MEDIUM. Most direct structural competitor but weaker on the key US-couple pain points: currency, coordination, single point of contact. LEA's USD contract is the decisive differentiator.

HOW TO WIN AGAINST PEACH PERFECT

Peach Perfect's Ireland offering is one of nine countries — LEA is a Republic of Ireland specialist with deeper local knowledge.

Their planning fee model means couples pay vendors separately and bear FX risk. LEA's single USD invoice is a decisive advantage.

Their package builder is sophisticated but creates a DIY feel. LEA's planning relationship is more personal and white-glove.

Peach Perfect serves couples from many countries. LEA speaks specifically to the American couple — the language, the concerns, the reference points.

Where Ladybird Ever After Sits

The table below maps all competitors by service model, price tier, and key positioning. LEA's position is highlighted. The critical gap in the market — and the one LEA uniquely fills — is the combination of premium full-service planning with a US-based entity and USD contract.

Company	Price tier	Service model	Guest range	US market focus	Positioning
Eloping in Ireland	Budget–Mid (\$3.9–7K)	Location packages, vendor choice	Up to 25	Medium	Value-led, location-specific, long-standing brand
Twin Flames	Mid (\$5.5–12K)	All-in-one (photo+video +planner)	Intimate only	Low	Authentic personal brand, Wild Atlantic specialists
Peach Perfect	Mid (€4–8K+)	Planning fee, couple pays vendors	2–60	Low	European operator, transparent pricing, DIY-adjacent
Love Gracefully	Low–Mid (€940–8.6K)	Wide range, basic to full-day	Up to 15 free	Very low	Budget entry, European market focus
EpicLove	Mid–High (\$6.8–21K)	Photography-first, not a planner	Not specified	Low	Media quality, not planning service
Ladybird Ever After	Premium (\$4.9–12.2K)	Full concierge, USD contract	2–50	ONLY US-based	Premium, stress-free, US company — the only one

THE MARKET GAP LADYBIRD EVER AFTER OWNS

There is no other Ireland elopement or destination wedding operator that is:

- (a) US-based,
- (b) operating under USD pricing with a single US contract,
- (c) providing full vendor management so the couple never pays Irish vendors directly,
- (d) and specialising exclusively in Republic of Ireland.

This combination is Ladybird Ever After's moat. It should be the first thing on the website, the first thing mentioned on intro calls, and the core of every marketing message.

What This Means for LEA

On Pricing

LEA's current pricing is well-positioned relative to competitors when the service model is understood. Fáilte at \$4,900 is above Eloping in Ireland's entry but significantly more inclusive. Grá at \$7,300 is competitive with Twin Flames and Peach Perfect at similar guest counts. Sláinte at \$8,900 for 13–25 guests is a strong mid-market offer with no direct comparable. Ard at \$12,200 is premium but justified by the full coordination package for larger groups.

The risk is not that LEA is overpriced — it is that couples see competitor prices without understanding what is and is not included. The messaging on the pricing page must make the comparison legible: 'One USD invoice. One point of contact. You never pay an Irish vendor. Full stop.'

On the Founder Story

The LEA founder story — an American wife and Irish husband who met in Atlanta, planned their own Irish wedding, and built a company from that experience — is the most powerful marketing asset in the business. Twin Flames have a similar authentic story (they eloped themselves), but they are a two-person Irish operation. LEA's story is the American couple's story. It should be told prominently, personally, and repeatedly.

On the Vow Renewal Market

Peach Perfect and Twin Flames both explicitly serve vow renewals. Eloping in Ireland mentions it. This is a growing segment that LEA is well-positioned to serve — particularly given the Ladybird Lite concept (self-service product for vow renewers at ~\$400) which no competitor offers. The symbolic ceremony option is critical for this market since legal re-marriage is not applicable.

On Legal Complexity

The 2026 tightening of Irish registrar requirements — three months' notice in person, limited outdoor ceremony approvals — is creating market anxiety. Competitors are telling couples to marry legally in the US and have symbolic ceremonies in Ireland. LEA's legal guidance

service is a genuine differentiator. The complexity is a reason to hire a planner, and LEA should be leaning into this message rather than minimising it.

On SEO and Market Presence

Eloping in Ireland has a significant first-mover SEO advantage, having operated since 2014. Peach Perfect has a sophisticated content marketing operation covering multiple European destinations. Twin Flames operates a much smaller digital presence (1,931 Instagram followers). LEA's content strategy should focus on the specific keywords and search intent that LEA can uniquely own: 'US company Ireland wedding planner', 'American elopement Ireland', 'Ireland wedding USD contract', and 'Republic of Ireland micro wedding planner'.

THREE IMMEDIATE ACTIONS FROM THIS RESEARCH

1. Make the USD single-contract story the first thing on the homepage and pricing page. It is LEA's moat and no competitor owns it.
2. Add a dedicated vow renewal page or section — Peach Perfect has one, Twin Flames has one. LEA's offering (symbolic ceremony, no legal complexity) is perfect for this market.
3. Create content explicitly targeting the legal complexity question: 'Should I get legally married in Ireland or at home?' This is a top-of-funnel question that LEA can own with authoritative, honest content — and the answer naturally leads couples to LEA.
